

# PLASMA DONOR APPLICATION

TOOL : JIRA

This screenshot shows the Jira Software interface for the 'Ritz' project, specifically the 'Backlog' view. The left sidebar contains navigation options under 'PLANNING' (Roadmap, Backlog, Board) and 'DEVELOPMENT' (Code, Project pages, Add shortcut, Project settings). The main content area displays the 'Backlog' with a search bar and a list of issues. The issues are categorized by status: 'TO DO' (RITZ-25: Deploy the app in Kubernetes Cluster) and 'Backlog (5 issues)' (RITZ-8: Design details page, RITZ-9: Connect Details page with database, RITZ-10: Design Dashboard for Donor, RITZ-11: Design Dashboard for beneficiary, RITZ-12: Connect dashboards with database). Each issue has a status indicator (DONE, IN PROGRESS) and a 'Create sprint' button. A 'Quickstart' button is visible at the bottom right.

Quickstart

This screenshot shows the Jira Software interface for the 'Ritz' project, specifically the 'Sprint-4' view. The left sidebar is identical to the previous screenshot. The main content area displays the 'Sprint-4' view with a search bar and a list of issues. The issues are categorized by status: 'TO DO 1 ISSUE' (RITZ-25: Deploy the app in Kubernetes Cluster), 'IN PROGRESS 2 ISSUES' (RITZ-23: Containerise the app with docker, RITZ-24: Upload image to IBM Container Registry), and 'DONE 4 ISSUES' (RITZ-19: Upload file to IBM cloud object storage - for covid certificate, RITZ-20: Sendgrid integration, RITZ-21: Send email when request arrives with matching blood group in same city, RITZ-22: Send email when password is). Each issue has a status indicator (DONE, IN PROGRESS) and a 'Complete sprint' button. A 'Quickstart' button is visible at the bottom right.

Projects / Ritz

### Sprint-4

Complete Sendgrid integration,cloud object storage for file upload,containerise the app and deploy in Kubernetes.
