PLASMA DONOR APPLICATION :
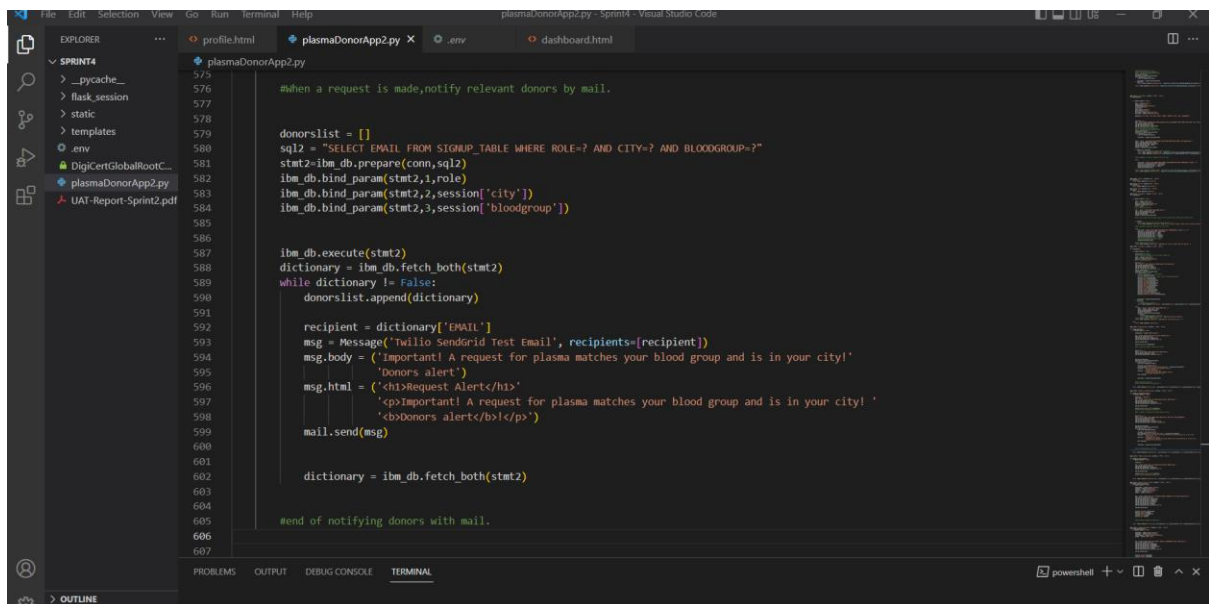

INTEGRATING SENDGRID

For sending email using sendgrid,api-key and sender mail are given inside .env file and python-dotenv and flask-mail are imported.

Code snippet showing Sending mail:

Sample output:

anan19110.cs@rmkec.ac.in via sendgrid.net   2:32 PM (8 hours ago)
to me

anan19110.cs@rmkec.ac.in via sendgrid.net   2:35 PM (8 hours ago)
to me
